

## Liquid Filters | Housings and Strainers

Sanitary ( Food, Beverage and Laboratory)

Single and multi-round housings are constructed of 316L stainless steel designed with standards for filtration applications requiring high purity production. Design characteristics minimize hold up volumes, provide for easy draining and cleanability. External surfaces mechanically polished and internal surface is acid washed for a consistent, easy care finish. Available to accommodate multiple configurations and up to 36 individual cartridges.

Additional styles of Multi-round housings are constructed of durable stainless steel and meet general purpose industrial and commercial filtration needs. All wetted welded surfaces are 316 stainless steel.

Accepts 10", 20", 30" and 40" cartridges with DOE, 222 and 226 configuration options.

High Flow Series Accepts large filter elements. Available in vertical or horizontal orientations, the High Flow housings can accept from 1 to 7 filter elements.
